- iPod Integration

The Montgomery...

distinctive residences complimented by Digital Home Technologies. By partnering with Centrum Properties, Inc., we were able to offer the developer a competitive advantage and the buyer a financeable solution for attaining the latest in home technologies. Technologies that take living space to the next level of enjoyment and cutting edge control.

With 15 years of experience, Digital Home Technologies provides the technological expertise to create state-of-the-art home theaters and distributed media systems. Music, sound and digital information are woven with mastery throughout the living space to make a theatrical experience come to life. Find out how our technology can enhance your project.
